

Tech Indicators

January 2024

Technology First

Promote the use of supportive technology as a solution to facilitate increased opportunities for Ohioans with developmental disabilities live, work, and grow in their homes and communities.

Indicator #1

Increase the number of people using Remote Supports Services
50 percent by December 2024.

To meet our goal of 50 percent, we need to have

3,336 people

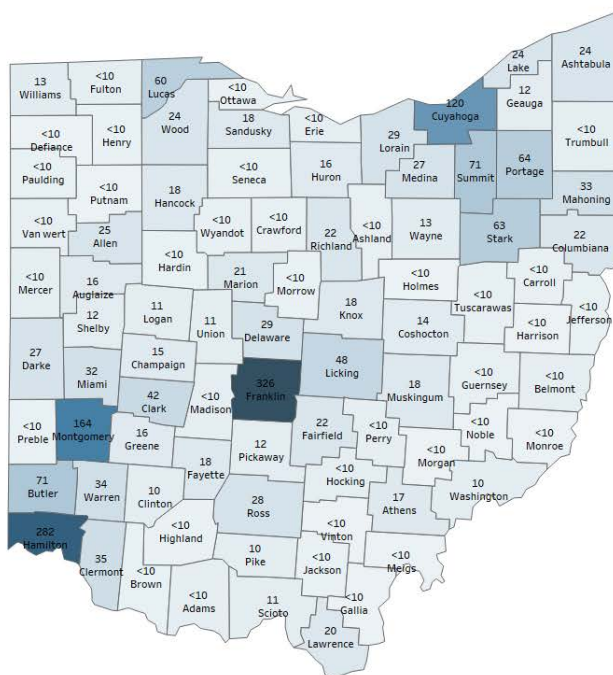

utilizing Remote Supports by December 31, 2024

As of January 31, 2024, there have been

2,282 people

that have utilized Remote Supports.

All 88 counties have at least one person utilizing Remote Supports.

Department of
Developmental
Disabilities

Promote the use of supportive technology as a solution to facilitate increased opportunities for Ohioans with developmental disabilities live, work, and grow in their homes and communities.

Indicator #2

Increase the overall usage of Remote Supports, Assistive Technology, and Virtual Services to 25 percent by June 30, 2026.

As of January 31,2024 there are

9,729 people

that are utilizing remote supports, assistive technology, and virtual services out of

48,865 people

utilizing home and community-based waiver services.

We are currently at **20 percent**.

Service	Number of People Utilizing Service
Virtual Services	107
Assistive Technology	5,847
Remote Supports	2,282
Technology + Virtual Services	10,068
HCBS Services	48,865
HCBS + Technology + Virtual	9,729
